LinkedIn: Ardi Wirya | GitHub: <https://github.com/ardiwirya> | Portfolio: <https://ardiwirya.vercel.app>

Fresh graduate in Informatics Engineering from Malikussaleh University with a strong academic background and a deep passion for software engineering. I have hands-on experience building responsive web applications using React, Next.js, JavaScript, and Tailwind CSS. Experienced in consuming and developing RESTful APIs, collaborating with Git and GitHub, and translating project requirements into maintainable digital solutions.

EDUCATION

Universitas Malikussaleh (UNIMAL) - Lhokseumawe, Aceh *September 2021 – January 2026*

Bachelor of Informatics Engineering | GPA: 3.75

Thesis: "Clustering Analysis of Rice Productivity Areas in Deli Serdang using the Isolation Forest Algorithm."

SKILLS & COMPETENCIES

- **Front-End Development:** React, Next.js, JavaScript, TypeScript, Tailwind CSS, Astro, Vite, HTML5, CSS3.
- **Back-End & Data:** Node.js, Express.js, RESTful API, PHP, MySQL, JWT Authentication.
- **Tools & Testing:** Git, GitHub, Postman, Supabase, Jest, Microsoft Office.
- **Data Science & Analytics:** Python, Machine Learning, Data Mining, Isolation Forest.
- **Soft Skills:** Team Work, Leadership, Technical Troubleshooting, Client Management, Cross-Cultural Communication, Strategic Planning.

EXPERIENCE

Freelance Software Engineer

2023 - Present

Self-Employed

- Developed, debugged, and optimized Front-End structures for various client web projects using HTML, CSS, and JavaScript.
- Built and delivered a custom content management system for a village government client, covering resident profile management, demographic data, and local news publishing through an admin panel.
- Managed client requirements from initial briefing to final delivery, ensuring code scalability and functionality.

Certified Independent Study by Dicoding

August 2023 – December 2023

Front-End Web and Back-End Developer

- Successfully completed a rigorous 918-hour intensive program focused on fundamental to advanced software development.
- Developed responsive web applications, implemented RESTful APIs using Node.js, and managed code repositories via GitHub.
- Collaborated on application documentation and applied Clean Code principles for optimal maintenance.

ORGANIZATION

UKM LDK Al-Kautsar

January 2024 – December 2024

Secretary General & Project Leader

- Spearheaded the "International Collaboration Mobility Students and Community Service", a 2-day cross-cultural initiative bridging Universitas Malikussaleh (Indonesia) and Universiti Sultan Zainal Abidin (Malaysia).
- Orchestrated event logistics, international seminars, and academic sharing sessions for 250+ participants, successfully fostering cross-border networking and cultural exchange.
- Managed administrative operations and strategic evaluations for 25+ other activities during the tenure.

KEY PROJECTS & PUBLICATIONS

- **NusaMart (Full-Stack E-Commerce)** - Built a production-style online store with Next.js, TypeScript, PostgreSQL, and Prisma, covering category browsing, flash sales, and a full checkout flow.
- **CollabSpace (Real-Time Collaboration)** - Built a Slack-style team workspace with Next.js, TypeScript, and Supabase, featuring real-time channel messaging, presence, and notifications.
- **Clinic Information System (Full-Stack)** - Built a full-stack information system with a React front-end and an Express.js REST API for managing patient records and appointment scheduling.
- **Academic Publication and Presenter at the Seminar Nasional Teknologi Informasi dan Teknik Informatika (SENASTIKA) 2024** - Co-authored a published journal titled "Comparison of Accuracy of Household Electricity Consumption Prediction Using Single Exponential Smoothing and Single Moving Average Methods".
- **Data Science Research (Thesis)** - Applied data mining, preprocessing, and the Isolation Forest algorithm to analyze and group rice productivity data across 22 districts in Deli Serdang.

LICENSES & CERTIFICATIONS

- | | |
|--|------|
| • Front-End Web Developer Expert — Dicoding Indonesia | 2023 |
| • Productivity with AI Bootcamp — Badan Ekraf Digital Talent | 2026 |
| • Fundamental Front-End Web Development — Dicoding Indonesia | 2026 |
| • SOLID Programming Principles — Dicoding Indonesia | 2026 |
| • TOEFL ITP (Score: 483) — UNIMAL Language Center | 2026 |

LANGUAGES

- Bahasa Indonesia (Native)
- English (Limited Working Proficiency)
